

Level 2 Award in Prevention and Control of Infection

We all know to wash our hands & cover our mouth when coughing or sneezing, but do we know enough?

An understanding of how to effectively prevent and control the spread of infection is crucial in ensuring that individuals do not unknowingly cause their family, friends, colleagues, and any other people that they come into contact with, to become unwell. By completing this course, learners will be equipped with a greater understanding of how to prevent and control the spread of infection in the workplace, and this can also be applied in their personal life. Learners will also gain knowledge of how to identify infections as well as the different types of infection.

Benefits of Study

- No need to attend college, work from home at a pace that suits you
- Achieve a nationally recognised Level 2 qualification
- Further your personal and professional development
- Available at no cost
